GKA CONSTRUCTION

COMPANY PROFILE

GKA Construction is a construction and contracting company providing end-to-end building construction, renovation, design, interior and allied civil construction services for residential, commercial and other building requirements.

Our approach combines practical skilled knowledge with organized planning, transparent communication and disciplined execution. We work to deliver projects with attention to quality, cost efficiency, safety and timely completion.

We aim to be a single, dependable point of contact for clients who need construction, renovation or multiple allied works coordinated under one project.

02 • OUR FOUNDATION

Vision, Mission & Values

OUR VISION

To establish GKA Construction as a trusted and professionally managed construction company recognized for quality workmanship, transparent execution and dependable project delivery.

OUR MISSION

- Deliver practical, cost-conscious and quality-focused construction solutions.
- Maintain professional standards in planning, execution, documentation and communication.
- Build long-term relationships through dependable project delivery and responsible service.
- Continuously improve project coordination, workmanship and client experience.

OUR VALUES

QUALITY	Attention to workmanship, materials and finishing.
INTEGRITY	Clear communication and responsible business practices.
ACCOUNTABILITY	Ownership of the work entrusted to us.
CUSTOMER FOCUS	Understanding requirements before execution.
EFFICIENCY	Reducing avoidable delays, wastage and rework.
PROFESSIONALISM	Organized project, billing and documentation.

Construction & Contracting Services

RESIDENTIAL CONSTRUCTION

- Individual homes & villas
- Multi-floor residential buildings
- New home construction
- Extensions & additional floors
- Complete turnkey construction

COMMERCIAL CONSTRUCTION

- Commercial buildings
- Offices & showrooms
- Hotels & hospitality properties
- Institutional buildings
- Industrial buildings & warehouses

CIVIL & STRUCTURAL WORKS

- RCC & concrete works
- Brick/block masonry
- Plastering
- Flooring & tiling
- Compound walls & paving

REPAIR & MAINTENANCE

- Building repairs
- Waterproofing
- Water tank works
- Roof-related works
- Civil maintenance

04 • TRANSFORMING EXISTING SPACES

Renovation & Remodeling

GKA Construction undertakes renovation, repair and remodeling works for residential, commercial, hospitality and other existing buildings. We begin by assessing the current condition and defining the required scope before execution.

COMPLETE RENOVATION

- Building renovation
- Residential renovation
- Commercial renovation
- Hotel renovation

INTERIOR RENOVATION

- Bathroom renovation
- Kitchen renovation
- Floor & wall upgrades
- Ceiling and finishing works

REPAIR & RESTORATION

- Structural repair
- Waterproofing
- Leakage solutions
- Restoration works

FINISHING

- Painting
- Tiling
- Flooring
- Doors, windows & finishing

RENOVATION FLOW

Inspection → Scope Definition → Estimate → Planning → Execution → Finishing → Handover

05 • FROM IDEA TO EXECUTION

Design & Planning

We support clients from the early planning stage through construction by coordinating building-related requirements and translating project objectives into an executable scope.

BUILDING PLANNING

- Building planning
- Architectural coordination
- 2D planning
- 3D visualization

SPACE & INTERIOR PLANNING

- Space planning
- Interior planning
- Elevation concepts
- Material selection support

ESTIMATION

- Construction estimation
- Quantity estimation
- Scope preparation
- Work scheduling

EXECUTION COORDINATION

- Resource planning
- Material coordination
- Site execution support
- Finishing coordination

DESIGN • PLAN • BUILD

Client Requirement → Site Assessment → Planning & Design → Cost Estimation → Work Planning → Construction → Finishing → Handover

Interior & Allied Works

INTERIOR WORKS

- False ceiling
- Wall finishing
- Painting
- Flooring & tiling
- Partitions
- Doors & windows

ELECTRICAL WORKS

- Electrical wiring
- Lighting installation
- Distribution systems
- Electrical renovation
- Commercial electrical works

PLUMBING WORKS

- Water supply
- Sanitary works
- Drainage
- Bathroom plumbing
- Kitchen plumbing

EXTERNAL & ALLIED

- Waterproofing
- Water tank works
- Roof works
- Compound walls
- Paving
- External development

Multiple construction and finishing requirements can be coordinated under one project, reducing the need for clients to manage several separate work teams.

Project Execution Process

01	**REQUIREMENT DISCUSSION** Understand objectives, scope, budget expectations and priorities.
02	**SITE ASSESSMENT** Review site conditions, measurements, access and existing structures.
03	**PLANNING & ESTIMATION** Define quantities, materials, scope and estimated costs.
04	**QUOTATION & DOCUMENTATION** Document agreed scope and commercial requirements clearly.
05	**PROJECT PLANNING** Organize manpower, materials, resources and schedule.
06	**EXECUTION** Carry out work according to the approved scope and requirements.
07	**PROGRESS MONITORING** Monitor site progress, coordination and quality.
08	**FINISHING & INSPECTION** Complete finishing, checks and required corrections.
09	**HANDOVER** Review completed scope and hand over the finished project.

Project Management & Client Transparency

Our project management approach is designed to keep clients informed while helping the project team maintain control over scope, schedule, materials and documentation.

PROJECT MANAGEMENT

- Scope management
- Work scheduling
- Material coordination
- Labour coordination
- Site supervision
- Quality monitoring

DOCUMENTATION

- Quotations
- Bills & invoices
- Project documents
- Drawings
- Work-related records
- Client documentation

DIGITAL PROGRESS UPDATES

- Daily/periodic work images
- Work descriptions
- Project timeline
- Milestone updates
- Client notifications

CLIENT PORTAL

- Secure client access
- Project overview
- Documents & bills
- Progress gallery
- Payment information
- Support communication

CLIENT TRANSPARENCY

For projects using our digital client management system, authorized clients can view approved progress images, project updates, documents and billing information through a secure portal.

Quality, Safety & Material Management

QUALITY FOCUS

- Proper work planning and scope clarity.
- Appropriate material selection based on project requirements.
- Measurement and quantity verification.
- Site supervision and workmanship monitoring.
- Finishing inspection and rectification of identified issues.
- Project documentation and communication.

SAFETY

- Safe material handling and organized site operations.
- Attention to worker and equipment safety.
- Site cleanliness and controlled material movement.
- Appropriate precautions for construction activities.

MATERIAL MANAGEMENT

We aim to manage materials through a planned cycle: **Planning** → **Procurement** → **Delivery** → **Storage** → **Usage** → **Monitoring**. This supports efficient resource utilization and helps minimize avoidable wastage and delays.

Experience & Project Capabilities

GKA Construction brings extensive practical field experience across building construction, civil works, renovation, repair, finishing and allied construction activities. Our capabilities support both individual work packages and larger end-to-end project requirements.

RESIDENTIAL

- Individual homes
- Villas
- Extensions
- Renovation
- Interior works
