Company Overview

A dependable construction partner for new builds, renovations and allied works.

GKA Construction is a construction and contracting company focused on delivering practical, quality-conscious solutions for residential, commercial and other building requirements.

From complete home construction to renovation, civil works, interiors and finishing, we can coordinate multiple work packages under one project. Our objective is to make construction easier for the client through clear scope definition, organized execution and professional communication.

OUR SERVICE PROMISE

ONE CONTRACTOR	CLEAR SCOPE	CONTROLLED EXECUTION
Coordinate major construction and allied requirements through one accountable team.	Define work requirements, quantities and deliverables before execution.	Monitor site progress, materials, workmanship and finishing.

15+ YEARS OF PRACTICAL FIELD EXPERIENCE

Built around hands-on construction knowledge, responsible execution and long-term client relationships.

Vision, Mission & Values

VISION

To grow as a trusted and professionally managed construction company recognized for quality workmanship, transparent execution and dependable project delivery.

MISSION

- Deliver practical, cost-conscious and quality-focused construction solutions.
- Maintain professional standards in planning, execution, documentation and communication.
- Build long-term client relationships through dependable service.
- Continuously improve project coordination, workmanship and customer experience.

OUR VALUES

QUALITY
• Attention to workmanship, materials and finishing.

INTEGRITY
• Clear communication and responsible business practices.

ACCOUNTABILITY
• Ownership of the work entrusted to us.

CUSTOMER FOCUS
• Understand the requirement before recommending the work.

EFFICIENCY
• Plan resources to reduce avoidable wastage and delays.

PROFESSIONALISM
• Organized execution, billing and documentation.

Core Construction Services

From foundation and civil work to finishing and handover.

COMPLETE HOME CONSTRUCTION

- Independent homes
- Villas
- Multi-floor residences
- Extensions & additional floors
- Turnkey construction

COMMERCIAL CONSTRUCTION

- Offices
- Shops & showrooms
- Hotels & hospitality
- Commercial buildings
- Warehouses & utility buildings

CIVIL & STRUCTURAL WORKS

- RCC & concrete works
- Brick/block masonry
- Plastering
- Flooring & tiling
- Compound walls & paving

REPAIR & MAINTENANCE

- Building repairs
- Waterproofing
- Water tank works
- Roof-related works
- Civil maintenance

TURNKEY CAPABILITY

For clients who prefer a single point of coordination, GKA Construction can combine civil construction, finishing and allied services into an integrated project scope.

Renovation & Remodeling

Upgrade an existing property without losing control of the scope.

We undertake renovation and remodeling for homes, commercial properties, hospitality spaces and other existing buildings. The work starts with understanding the current condition and the client's desired outcome.

COMPLETE RENOVATION

- Residential renovation
- Commercial renovation
- Hotel / hospitality renovation
- Extensions & modifications

INTERIOR RENOVATION

- Kitchen upgrades
- Bathroom renovation
- Floor & wall upgrades
- Ceiling & finishing works

REPAIR & RESTORATION

- Civil repairs
- Leakage-related works
- Waterproofing
- Restoration & rectification

FINISHING

- Painting
- Tiling
- Flooring
- Doors, windows & final finishing

RENOVATION FLOW

SITE INSPECTION → SCOPE → ESTIMATE → PLANNING → EXECUTION → FINISHING → HANDOVER

Design, Planning & Estimation

Good construction starts with a clear plan.

We support clients in translating their requirements into a practical construction scope. Where specialist architectural or engineering approvals are required, the relevant professionals can be coordinated as part of the project requirements.

BUILDING PLANNING

- Requirement-based planning
- 2D planning
- Elevation concepts
- 3D visualization support

SPACE & INTERIOR PLANNING

- Space utilization
- Interior planning
- Material selection support
- Finishing concepts

ESTIMATION

- Quantity estimation
- Scope preparation
- Material planning
- Cost estimation

EXECUTION PLANNING

- Work sequencing
- Manpower planning
- Material coordination
- Schedule planning

DESIGN • PLAN • BUILD

Requirement → Site Assessment → Planning → Estimation → Approval → Execution → Finishing → Handover

Interiors & Allied Works

Coordinate the finishing and supporting works that complete the building.

INTERIOR WORKS

- False ceiling
- Wall finishing
- Painting
- Flooring & tiling
- Partitions
- Doors & windows

ELECTRICAL WORKS

- Electrical wiring
- Lighting
- Distribution systems
- Electrical renovation
- Commercial electrical works

PLUMBING WORKS

- Water supply
- Sanitary works
- Drainage
- Bathroom plumbing
- Kitchen plumbing

EXTERNAL & SPECIALIZED

- Waterproofing
- Water tank works
- Roof works
- Compound walls
- Paving & external development

WHY COORDINATION MATTERS

When civil, electrical, plumbing and finishing activities are properly sequenced, the project can avoid unnecessary rework and reduce coordination problems between different teams.

Project Execution Process

A simple, structured workflow from first discussion to final handover.

01	**REQUIREMENT** Understand objectives, scope, priorities and expected outcome.
02	**SITE ASSESSMENT** Review site condition, measurements, access and existing structure.
03	**SCOPE & ESTIMATE** Prepare quantities, work scope, materials and estimate.
04	**QUOTATION** Present commercial scope and documentation for client review.
05	**PLANNING** Organize manpower, materials, sequencing and schedule.
06	**EXECUTION** Carry out the approved work with site coordination.
07	**MONITORING** Track progress, workmanship, materials and milestones.
08	**FINISHING** Complete final works, checks and required corrections.
09	**HANDOVER** Review completed scope and hand over the project.

Project Management & Client Portal

A modern workflow for better visibility, documentation and communication.

PROJECT MANAGEMENT

- Scope tracking
- Work scheduling
- Material coordination
- Labour coordination
- Site supervision

DIGITAL PROGRESS

- Daily / periodic work images
- Work descriptions
- Milestone updates
- Progress timeline

CLIENT ACCESS

- Secure client login
- Project overview
- Progress gallery
- Documents & bills
- Project communication

DOCUMENT CONTROL

- Quotations
- Bills & invoices
- PDF / DOCX documents
- Drawings & records
- Project files

CLIENT TRANSPARENCY

For projects using our digital project portal, authorized clients can view approved progress updates, work images, project documents and billing information in one place.

Quality, Safety & Material Management

QUALITY CONTROL

- Clear work scope and measurable deliverables.
- Material selection based on project requirements.
- Quantity and measurement verification.
- Site supervision and workmanship monitoring.
- Finishing inspection and rectification.
- Structured project documentation.

SITE SAFETY

- Safe material handling and organized site operations.
- Attention to worker, visitor and equipment safety.
- Controlled material movement and storage.
- Site cleanliness and responsible work practices.

MATERIAL MANAGEMENT

PLAN → PROCURE → DELIVER → STORE → USE → MONITOR

A planned material cycle helps reduce avoidable wastage, supports smoother execution and improves control over project requirements.

Experience & Project Capabilities

Practical experience across residential, commercial and allied construction work.

GKA Construction has practical field experience across building construction, civil works, renovation, repair, finishing and allied services. We can undertake complete projects as well as individual work packages.

RESIDENTIAL

- Independent homes
- Villas
- Extensions
- Renovation
- Interior works

COMMERCIAL

- Offices
- Shops & showrooms
- Commercial buildings
- Hotels & hospitality
- Maintenance

INSTITUTIONAL

- Schools
- Training facilities
- Community buildings
- Institutional requirements

INDUSTRIAL & UTILITY

- Industrial structures
- Warehouses
- Utility buildings
- Civil maintenance

REPRESENTATIVE WORK EXPERIENCE

Roots Corporation Limited – Ginger Hotel, Navalur, Chennai
